

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

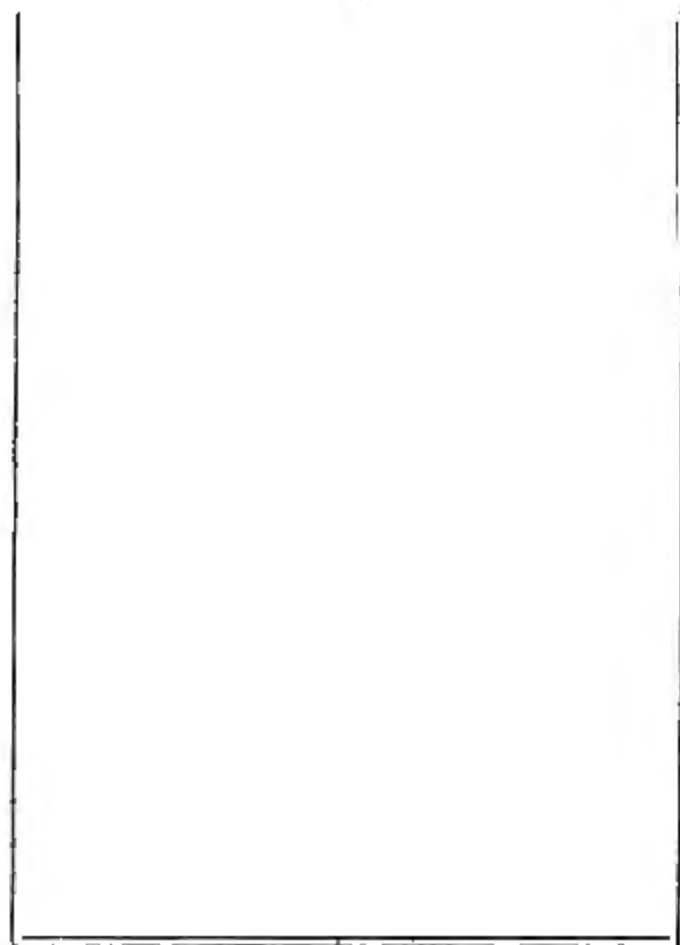

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

J. H. JONES, *Chairman.*

Report accepted and committee discharged.

The bill was referred to the committee of the whole, and placed on the general order.

By the committee on ways and means:

The committee on ways and means, to whom was referred a resolution to inquire and ascertain whether the Hon. Emil Anneke, late Auditor General, has returned and paid over to the State all moneys received by him for the benefit of the State, have had the same under consideration, and respectfully ask leave to make the following report:

The terms of the resolution are quite general, and involved an investigation of the receipts and disbursements of public moneys by the late Auditor General, as well as an examination of the method, in some respects, of doing business in that office. The committee have devoted as much time to the discharge of the delicate duty, imposed by the resolution, as their official engagements would permit, and have availed themselves of all the information in their power, having had before them Mr. Anneke and a number of other gentlemen familiar with the business and duties of the Auditor General's office. As the result of their investigations, they have been unable to trace any moneys of the State in the hands of the late Auditor General, unaccounted for, except *fees and charges received for abstracts and searches* made, during the last three years of his administration. It is admitted that all such receipts for the last three years have not been accounted for to the State, but have been retained and appropriated by the Auditor General to his own personal use as legitimate and proper fees belonging to him as perquisites of his office.

As these fees and charges amounted, in 1862, to about six hundred dollars, and in 1863, to nearly nine hundred dollars, and were, when accounted for, steadily increasing each year, in the judgment of the committee it is fair to presume that the amount for the past three years would fully equal, if not exceed, the sum of one thousand dollars per annum. Can these fees be properly applied to the personal use of the Auditor General? We apprehend they cannot. The constitution of the State provides that the Auditor General shall have an annual salary of one thousand dollars, and does not provide

that he shall receive any fees or perquisites whatever, for the performance of any duties connected with his office. To us this provision is manifest and plain. It was designed by the framers of that instrument to prescribe the salary of the Auditor and to prohibit him from receiving any other compensation for his services in that capacity. The appropriation of these moneys to the personal use of the Auditor, is sought to be justified on the ground that from the time of the adoption of the constitution until January, 1855, no account of these moneys was rendered to the State, and that during that period they were applied by the Auditor General to his own individual use. The committee are informed that it is true that these moneys were so applied by the person who held the office of Auditor General at the time of the adoption of the constitution, and for several years thereafter. But in 1855, it was held by the Auditor General, (and as we think, correctly,) that these moneys belonged to the State, and from that time until some three years since, they have been regularly accounted for, and paid into the State treasury. Because officials, years ago, saw fit to disregard the policy plainly contemplated by the constitution and laws, it seems to us no justification for the pursuit of a like course by another man. But independent of the constitution and laws, it seems to the committee that these charges should properly go into the State treasury. This business is not of rare occurrence, happening but seldom, like a search with reference to the condition of taxes against a description of land. Frequently full tax histories have been made, requiring a large amount of copying and the labor of one or more clerks for weeks successively. As an illustration of the labor and expense of such histories, we may state that one recently made for the county of Shiawassee, was estimated to be worth two hundred and seventy-five dollars, and another for the county of Branch, two hundred and twenty-five dollars. Indeed, the committee are advised that during the last three months of Mr. Anneke's administration, some five clerks, all of whom were paid by the State, were almost constantly engaged in making these tax his-

tories, the avails of which labor went wholly to the Auditor General. The committee think they may safely estimate that not less than two thousand dollars have been paid to clerks from the State treasury within the past three years, for labor of this kind, for which the late Auditor General has received pay, in his personal capacity. We are informed that the full time of more than one clerk is required to discharge the duties for which fees and charges are thus made and received.

Now if the Auditor may appropriate the time of one clerk to his own personal use and benefit, he may in like manner appropriate the services of other clerks. If he may keep one clerk at work on abstracts or histories for which he receives the fees, he may keep ten clerks at work on similar jobs, if he can get them to do, and the State, instead of paying him one thousand dollars per annum, may in fact, be paying him ten times that amount. But we are told that the salary of the Auditor General is very low, and without the appropriation to himself of these fees, Mr. Anneke could not have decently supported himself and family, in this city. This may be true; but nevertheless, Mr. Anneke accepted the office with a full understanding of the amount that he was to receive for his services. In taking the position he virtually bargained with the State to fulfill the duties imposed thereby, for the salary fixed by the constitution and laws. Upon this understanding he acted for nearly the whole of the first year that he discharged the duties of this important and responsible office. We think he should have continued in that course, and that in adopting a different policy, he misappropriated a part of the moneys of the State received by him. Upon full and mature consideration, the committee are unanimously of the opinion that Mr. Anneke should account for, and pay over to the State all moneys received by him on account of fees and charges while in said office, deducting therefrom any sum or sums paid by him to clerks engaged in making such abstracts. Under our view of the law, his salary of one thousand dollars per annum, and the use of the dwelling-house owned by the State, occupied by him

without charge during his administration, is all that he can lawfully and properly receive for his services as Auditor General.

The committee in candidly and frankly expressing their views upon the subject, desire to cast no reflections upon the manner in which the late Auditor General discharged the duties of that office. They have no fault to find with the general management and conduct of affairs there by Mr. Anneke. They make no imputations upon him of corrupt conduct; but they believe that under a misapprehension of his right to do so, he has retained moneys that properly belong to the State; and ask to be discharged from the further consideration of the subject.

MOTIONS AND RESOLUTIONS.

Mr. Fenton offered the following:

Whereas, The committee on ways and means, pursuant to a resolution of this House, have made a full and fair investigation into the affairs of the Hon. Emil Anneke, late Auditor General;

And whereas, The said late Auditor General has failed to render an account to the State Treasurer of the fees and perquisites, amounting, as nearly as the said committee can ascertain, to several thousand dollars, during the last three years of his administration, and has appropriated the same to his own personal use and benefit; therefore

Resolved, (the Senate concurring,) That the Board of State Auditors be and they are hereby authorized and instructed to require the Hon. Emil Anneke, late Auditor General, to pay into the State treasury all moneys belonging to the State now in his possession, and not heretofore paid over to the State Treasurer, as required by law.

Laid on the table for one day, under the rules.

Mr. Dusseau offered the following:

Resolved, That the compensation of the keeper of the cloak room be \$2 50 per day;

Which was adopted.

The committee on the Asylum for the Insane, by unanimous consent, submitted the following report:

The committee on the Insane, to whom was referred sundry matters relative to the insane, beg leave to submit the following:

Gold low, with but little in the market at any price. Money matters active in Lansing, with plenty of takers.

Government stocks dull and a shade lower. Breadstuffs and whisky going down rapidly. Fenian bonds not yet on the market.

LATER.—The stock exchange was very weak on railroad bonds yesterday morning. Grand Trunk was the great feature, and sold down to 50. Detroit and Howell double track not yet in market, and probably never will be, as the Governor proposes to hold them for his own use. All other railroads in the same fix. Detroit water works drizzling.

STILL LATER.—Swamp land bonds at par yesterday forenoon, but later in the day the demand was not so great, and they were repudiated by the House of Lords and thrown out of market, leaving Mr. Taylor's swamp land "commissioner," to the sad fate of being drawn under by sharks.

THE VERY LATEST.—The gentleman from Grand Traverse wants to return to the bosom of his constituents, without regard to sex, where he can make maple sugar and shingles, and the sooner the rest of us do the same thing, the better it will be for the State, the members of the Legislature, the health of his Excellency the Governor, and generally for the readers of the Detroit dailies.

In consideration of these facts, your committee would recommend that we all be passed home as soon as possible, and ask to be discharged from the further consideration of the subject.

E. J. BONINE, *Chairman.*

Report accepted and committee discharged.

Mr. L. Smith offered the following:

Whereas, An able report has been submitted to this House,

by the Committee on the Insane, relating to sundry matters of vital importance to members of this House; ●

And whereas, Among other important facts set forth in said report, it has been shown that the "money market" in Lansing, is very close, and "spirits" unsettled;

And wheraes, Startling revelations have been made in connection to railroad affairs, wherein it is asserted that, owing to the vast amount of railroad stocks likely to be thrown upon the market, a speedy crisis is anticipated; also, showing that the course adopted by the "*House of Lords*," swamp land will soon become extinct, unless such course be speedily changed by said body; therefore,

Resolved, That owing to the unsettled condition of affairs, as set forth in said report, this House does most respectfully remonstrate against the course adopted by the aforesaid body: *Provided,* A more conciliatory course could be substituted therefor, and thereby avert the IMPENDING CRISIS likely to befall the citizens of this State, should such a course be persisted in.

Resolved, That the main features of said report be concurred in by this House, and that said committee be discharged from further considering the subject.

On motion of Mr. L. Smith,

The resolution was referred to the committee on the Insane Asylum.

● Mr. Woodman offered the following:

Resolved, (the Senate concurring,) that the Attorney General of this State, be and he is hereby instructed to take such proper and necessary steps as may be consistent with existing laws, to cause the affairs of the Climax Mutual Insurance Company to be wound up, and a receiver of the assets of said Company appointed.

Laid on the table for one day under the rules.

Mr. Corey offered the following:

Whereas, The State of Michigan, by the terms of sale of the Michigan Central Railroad, in 1846, did reserve to the State the right to re-purchase said road at any time after the first day

of January, A. D. 1867, upon certain conditions therein specified;

And whereas, Said road has earned a large sum for its stockholders, for several continuous years, over and above its operating expenses, which for the year ending May 31st, 1866, was \$1,949,250, and the net receipts for the same year, over and above improvements, losses, interest, exchange and Government tax, was \$830,072, which average profit hereafter would of itself pay for the re-purchase of the road, in accordance with the conditions of its sale, within ten years from this date, and leave said property free and unincumbered to the State at the end of ten years; therefore

Resolved, That the committee on internal improvements be and they are hereby instructed to examine into the expediency of the purchase by the State of Michigan, of the Michigan Central Railroad, as provided by sections 36 and 37, of an act of the session laws of 1846, entitled "an act to authorize the sale of the Central railroad, and to incorporate the Michigan Central Railroad Company," and to report thereon, in writing, to this House.

On motion of Mr. Corey,

The resolution was referred to the committee on internal improvements.

Mr. Walker offered the following:

Resolved, (the Senate concurring,) That the Secretary of State, in compiling, as heretofore directed, the highway laws, as they shall exist at the end of the present session, be requested to publish therewith the forms applicable to the highway laws of this State, prepared and published by Wm. T. Young: *Provided*, The use of the copyright thereof for this purpose, can be obtained for a reasonable sum, to be fixed by the Board of State Auditors: *And provided*, That on examination by him the same shall be found applicable to existing laws.

Laid on the table for one day under the rules.

Mr. Wilson moved to take from the table Senate bill, No. 57, entitled

A bill to provide for the payment of unliquidated swamp land contracts;

Which motion prevailed.

The question being upon the passage of the bill,

Mr. Wilson moved to amend the bill, as follows:

1. By striking out in section 1, line 4, the words "all the," and inserting the words "so much," in lieu thereof;

2. By striking out in section 1, lines 5 and 6, after the word "appropriated," the following: "and also the interest that has or shall accrue thereon;"

Which motion did not prevail.

On motion of Mr. White,

The bill was recommitted to the committee on public lands, with instructions to amend the same as proposed, and report immediately.

The committee on public lands submitted the following report:

The committee on public lands, to whom was recommitted Senate bill No. 59, entitled

A bill to provide for the payment of unliquidated swamp land contracts,

GEORGE WILLARD, *Chairman.*

By the committee on education:

The committee on education, to whom was referred the remonstrance of J. C. Rouse, A. G. Mount, and eleven others, against the enlargement of fractional union school district of Saline, in the county of Washtenaw, by the dismemberment of the surrounding districts,

Respectfully report that they have had the same under consideration, and have directed me to report the same back to

the House, with the recommendation that it be laid upon the table, as the bill against the passage of which the remonstrance was made, has been reported upon unfavorably by the committee to whom it was referred.

GEORGE WILLARD, *Chairman.*

Report accepted and committee discharged.

On motion of Mr. Jewell,

The remonstrance was laid on the table.

By the committee on the Asylum for the Insane:

The committee on the Asylum for the Insane, to whom was referred Senate bill No. 247, entitled

A bill making appropriation for the Michigan Asylum for the Insane, and to repeal sections two and three, of act No. 192, of session laws of 1865, and amending section five, of act number 164, of the laws of 1859,

Respectfully report that they have had the same under consideration, and have directed me to report that, in the opinion of the committee, it is proper that a bill making as large appropriations for this purpose as does this bill, should have a word of explanation from this committee.

The sums appropriated by this bill are as follows: \$71,000 for the purpose of erecting and furnishing the north wing of the Asylum, and \$12,000 for the purpose of erecting and furnishing a chapel and kitchen, and \$10,000 for the purchase of supplies for the Asylum for the year 1867, amounting in the aggregate to \$93,000. But as it is provided in section two of this bill that the balance in the treasury to the credit of the military fund, which your committee is informed is some fifty thousand dollars, shall be applied on these appropriations, it will leave only \$43,000 of the amount appropriated by this bill to be added to and incorporated in the State tax for the year 1867; and while it is the opinion of the committee that in the present disturbed and uncertain condition of financial affairs, and with the present and prospective scarcity of money, and with the high rates of taxation which must unavoidably prevail until the financial burdens necessarily assumed by our peo-

ple for the suppression of the late rebellion are liquidated and discharged, that under this state of affairs it is of the utmost importance that all appropriations that will increase the burdens of the tax-payer should be restricted within the limits of public necessity and judicious economy; still the committee are of the opinion that this appropriation is one that is required by considerations of necessity and humanity, and that it cannot be withheld without inflicting severe injury and hardship upon a most unfortunate class of our fellow citizens. It is a well known fact that the present accommodations for insane patients at the Asylum are entirely inadequate to meet the applications for this class of sufferers from among our own citizens. Instances have come to the knowledge of the committee of the most distressing character, where those who had become bereft of reason and were raving maniacs had been brought to the Asylum under the confident expectation of securing admission for them, but as the Asylum was already full to overflowing were necessarily refused, and were obliged to be taken back to their homes, to be a constant source of care and anxiety to their friends, and of disquiet and even terror to the communities where they lived. In the opinion of the committee there is no class of unfortunates that have stronger claims upon public pity and charity than those in whom has become extinguished that light of reason which alone makes man "the prince of creatures," and without which he is left devoid of sense or wisdom to guide or restrain his course, like a ship in the midst of the tempest-tost ocean without helm or pilot. Your committee, therefore, deem it important that the Asylum should be completed as early as possible, so as to afford admission, safety and sanitary treatment for all within our own borders who may, under the dispensations of Providence, become thus afflicted, and have reason to believe that when this is done the institution will become nearly, and perhaps entirely, self-supporting, as a class of patients can then be admitted whose means are ample to pay a liberal price for their support and treatment, whereas now only those can be admitted who

are in indigent or very limited circumstances, and for whom there is no means of support at private asylums or at institutions in other States.

Your committee have therefore instructed me to report the bill back to the House, and recommend its passage, and ask to be discharged from the further consideration of the subject.

J. K. BOIES, *Acting Chairman.*

Report accepted and committee discharged.

The bill was referred to the committee of the whole, and placed on the general order.

By the committee on the judiciary:

The committee on the judiciary, to whom was referred Senate bill No. 78, entitled

Resolved, (the Senate concurring,) That the Secretary of State, in compiling, as heretofore directed, the highway laws, as they shall exist at the end of the present session, be requested to publish therewith the forms applicable to the highway laws of this State, prepared and published by Wm. T. Young: *Provided*, The use of the copyright thereof for this purpose, can be obtained for a reasonable sum, to be fixed by the Board of State Auditors: *And provided*, That on examination by him the same shall be found applicable to existing laws.

The resolution was adopted.

Also, the following:

Resolved, (the Senate concurring,) that the Attorney General of this State, be and he is hereby instructed to take such proper and necessary steps as may be consistent with existing laws, to cause the affairs of the Olimax Mutual Insurance Company

to be wound up, and a receiver of the assets of said Company appointed.

The resolution was adopted.

Also, the following:

Whereas, The committee on ways and means, pursuant to a resolution of this House, have made a full and fair investigation into the affairs of the Hon. Emil Anneke, late Auditor General;

And whereas, The said late Auditor General has failed to render an account to the State Treasurer of the fees and perquisites, amounting, as nearly as the said committee can ascertain, to several thousand dollars, during the last three years of his administration, and has appropriated the same to his own personal use and benefit; therefore

Resolved, (the Senate concurring,) That the Board of State Auditors be and they are hereby authorized and instructed to require the Hon. Emil Anneke, late Auditor General, to pay into the State treasury all moneys belonging to the State now in his possession, and not heretofore paid over to the State Treasurer, as required by law.

Mr. C. R. Brown offered the following as a substitute therefor:

Whereas, The committee on ways and means, pursuant to a resolution of this House, have investigated the affairs of the Hon. Emil Anneke, late Auditor General, and have reported to this House that the said late Auditor General has failed to render an account to the State of certain moneys received by him for "fees and charges received for abstracts and searches made during the last three years of his administration;"

And whereas, Said report shows that said abstracts and searches were made, in part, by persons in the employ and under the pay of the State;

And whereas, Said report further shows that certain predecessors of the said Auditor General, to wit, previous to the year 1855, received and appropriated to their own use, fees as aforesaid;

And whereas, There is no law requiring the Auditor General

to make the searches and furnish the abstracts above referred to; therefore,

Resolved, (the Senate concurring), That in our judgment a law should be enacted making it the official duty of the Auditor General, and other State officers, on application, to make examination of the records of their office, and to furnish certified abstracts thereof, on payment to them for the use of the State of reasonable fees therefor.

Resolved, That the said Hon. Emil Anneke, late Auditor General, and his said predecessors prior to the year 1855, are in duty bound to pay into the State treasury all such sums of money as may have been paid by the State to the clerks employed in the offices of the said Hon. Emil Anneke and his said predecessors, for services rendered by said clerks, not provided by law, and for which the said several Auditors have received extra compensation.

Mr. Corey demanded the yeas and nays:

On motion of Mr. Newcombe,

The bill was laid on the table.

The committee on fisheries, by unanimous consent, submitted the following report:

The committee on fisheries, to whom was referred the fishing interests of the State, have had the same under consideration, and respectfully beg leave to submit the following report:

The fisheries of Michigan but a few years ago were comparatively insignificant and unknown to our people, and scarcely entitled to mention as a branch of our commerce; even as late as 1845, the entire catch of our fisheries amounted only to a few hundred barrels, and these had to be disposed of by the poor fishermen at ruinous prices; but the development of our resources and the ready and growing demand for our lake fish,

as a delicious and wholesome article of food, has given a steady impetus to this branch of our commerce, and now we can proudly boast of having the greatest and richest fresh-water fisheries in the world, and almost equal if not rivaling the salt water fisheries of the Atlantic ocean. We regret that no statistical information of the annual catch in past years was available to your committee, but from general information furnished by gentlemen of character and integrity, who have been largely engaged in the fishing business during the last ten years, the catch of the past season cannot fall much short of 200,000 packages, which, at fair market rates, would amount to one and a half millions of dollars. Fabulous as the amount may appear to persons who are not acquainted with the magnitude of the business, in our opinion it is rather below than above the actual value. As an illustration of the great abundance of this inexhaustible element of wealth in our lakes, we would state that it is not uncommon for fishermen to take out of one pound net, in twenty-four hours, over one hundred packages of fish, thus clearing a profit on one haul of seven hundred dollars.

Our great lake fisheries are yet in their infancy and should be encouraged by the State in order to more fully develop them. In our opinion a small State bounty would be more effectual to bring about this result than any other policy. This would enable poor but worthy fishermen, who have not the means to purchase their necessary outfits, to engage in this lucrative calling, and add very materially to the greatness and welfare of our State. In this connection we would also recommend to the favorable consideration of the constitutional convention, to be held the present year, to revise the organic law, the importance of creating the office of State Superintendent of fisheries. He should be a scientific man, whose duty it should be to look after our fisheries, and create a bureau of statistical information. He should also devote a portion of his time to the study and habits of the different varieties of our lake fishes, and embody his investigations and the condition of our fisheries in an annual report to the Legislature. By this

means much valuable information might be gained by the people engaged in this business. It should also be the duty of the fish inspectors to report to the superintendent all fish inspected by them, and the quality, &c. These inspectors should be licensed by the State, and the superintendent should have power to revoke the same on a failure to report quarter-yearly or as he should direct. In this way we would be able to learn the annual yield of the various localities where fishing is carried on, and thereby enable the fishermen to follow the finny tribes to their various places of resort during the fishing season.

We believe this important subject should be duly considered at an early day, not only as a matter of policy, but in justice to the people who have over half a million of capital invested in this business, and which gives employment to five thousand fishermen during the greater portion of the year.

Perhaps it may not be generally known that the principal depot of this, now remunerative trade, is at the island of Mackinaw, in the straits of Michilimackinac. From the earliest settlement of the island by the French, in 1673, to the present time, it has been the fishing depot of the great lakes. No one who has ever visited its beautiful and romantic shores, can doubt but that it is admirably adapted, from its delightful climate, central location and easy accessibility at all times to the innumerable fleet of fish boats that constantly ply to the numerous fishing grounds abounding in its vicinity. It was here the old French *voyageurs*, on their long perilous journeys to the frozen lakes and rivers of the north, in carrying on the fur trade, congregated to replenish their scanty supply of provisions, by catching and preserving large quantities of Mackinaw white fish and salmon trout, now so famed throughout the land, and so highly prized as a rare luxury of the table by citizens from all sections of the union. To these old French settlers of the north-west is mainly due the credit of developing and extending this great source of the national wealth, and their descendants, with a dauntless courage and untiring perseverance, worthy of their fathers are now found foremost in

carrying on this risky and fluctuating business, regardless of personal hardships and danger, braving the fierce gales and dreadful storms of our northern lakes, at nearly all seasons of the year, in their saucy little barks, commanding at once the admiration and delight of all who love the dangers of a life fraught with peril and rare adventure. This, in brief, is a glance at the history of our early fisheries, and judging the future by the past, it is safe to estimate that with wise legislation and proper encouragement, in less than ten years, this branch alone of our national wealth will reach the enormous sum of five millions of dollars. Of course it is impossible to estimate the influence of this great trade in developing and settling up our north-western territory, but judging from the steady tide of emigration coming in from the older States, attracted by our fisheries and mineral wealth, the day is not far distant when the wild and neglected lands of our northern frontier will teem with wealth and civilization, causing the once favorite hunting grounds of the lordly red man to blossom like the rose. Wisdom and sound policy would seem to dictate that we should foster and control the handling of the rich and valuable products of the northern portion of our State; and to do so successfully, it is indispensable that we should, without further delay, furnish transportation at all seasons of the year, for those productions, to the markets of the east, and thus extend the ability of capital and labor in developing our mining, lumbering and fishing interests.

We believe this desirable result can be accomplished by capital judiciously invested in a railroad to the straits of Michilimackinac, where a commerce that now requires the capacity of twenty-five thousand vessels to float it to the markets of the world, awaits its advent. This is a great prize, worthy of the ambition of Michigan and her sons, and we hope the day is not far distant when her young giant grasp will be equal to the achievement of this grand undertaking,—thus will our noble State be entitled to the proud privilege of being what her geographical position entitles her to be, the highway of nations.

The fisheries of Michigan will then furnish the tables of the epicures of the old world as well as the new with the delicious fish to be found only in the deep and pure waters of our inland seas. All of which is respectfully submitted for the favorable consideration of your honorable body.

REPORT OF SPECIAL COMMITTEES.

The special committee appointed by the House, to investigate certain charges, preferred against the Hon. Wm. P. Healey, a member of this House, from Marquette county, in a certain document which was distributed among the members thereof, entitled "Reasons why the bill organizing Washington county should be repealed," respectfully report, that in pursuance of the action of your Honorable body, they proceeded to investigate the truth of the charges contained in the document aforesaid, and for that purpose cited the Honorable member from Marquette and the parties purporting to have signed said document, before them for the purpose of examining them on oath as to the truth of the statements therein contained.

And your committee further report, that they confined their investigation to the first and seventh charges contained in the statement aforesaid, more particularly reflecting on the character and integrity of the said Hon. Wm. P. Healy.

Your committee find in reference to the first charge, as a reason why said bill should be repealed, viz: "that it was a fraud in intent and fact, sprung by a treacherous Representative upon the tax-payers and citizens of the district from which said county is set off," that in the estimation of your committee, it is questionable whether an investigation into the motives or intentions of a member of this Honorable body in moving any measure of legislation, should be entertained by your committee, unless upon charges preferred against such member under a resolution for his expulsion.

It seems necessary to the safety and independence of the legislative branch of our government, that the members thereof

should not be amenable to censure by either House, for the exercise, simply, of legislative action on any subject that may be brought before them that would not warrant an expulsion of such party from the same. Whatever may be the motives or intentions of a member in introducing any subject matter of legislation before your honorable body, whether beneficial or otherwise, to his constituents, to them alone, under our system of government, is he directly responsible. They sit in judgment on his acts, and approve or condemn, as they see proper. But, as the Honorable member from Marquette desired an investigation into the charges aforesaid, as a matter of privilege solely, your committee proceeded to investigate the truth thereof, and present for the consideration of the House, the following facts in connection therewith:

From the evidence produced before your committee, bearing on the charge aforesaid, it appears that it was not generally known in the county of Marquette that measures would be taken by the Honorable member representing that county, at the present session of this Legislature, for the division of said county, previous to the meeting of this body. Particularly was this true in reference to the village of Marquette and vicinity. Yet, from the affidavits of several respectable citizens of the village of Negaunee, and from telegrams sent to different members of the Legislature, it clearly appears that the matter of such division was freely canvassed in said village by the citizens thereof; although, probably for ulterior purposes, such parties in said village and vicinity as had interests in the village of Marquette, were not informed of such contemplated movement.

It also appears from the petition heretofore presented by the Honorable member from Marquette to this House, as well as from the accompanying remonstrance of Harrison W. Jackson, E. N. K. Talcott, and 183 others, residents of Washington county, against the repeal of the act organizing said county, that quite a large body of the citizens of the original county of Marquette approved of the action of their said representative in obtaining the organization of said county. It also appears

from the evidence before your committee, that the principal parties opposed to the organization of said new county, outside of the village of Marquette, are the owners, agents or superintendents of mining companies situated within said county, whose interests in most cases are identified with the village of Marquette, and who are therefore opposed, as well as the citizens of Marquette, to a division of said original county. The mining corporations, who are large tax-payers in said new county, it is evident, judge this measure principally from a pecuniary stand-point, measuring the benefits or disadvantages thereof in so many dollars and cents.

While your committee decline to express an opinion on the measure which gave rise to the charges made by the parties aforesaid against the honorable member from Marquette, they are *unanimously* of opinion that the said first charge, so made as aforesaid against the Hon. Wm. P. Healy, is *entirely uncalled for and unwarranted*.

As to the seventh charge contained in said statement, your committee are of opinion that the organization of said new county, can only inure to the benefit and self-aggrandizement of the Hon. Wm. P. Healy, through the free and voluntary action of the electors of the same, and should a majority thereof desire to bestow office and emolument upon the Honorable member from Marquette, (as the parties making said charges anticipate,) your committee certainly have no objection thereto. Our free system of government is founded upon the principle that the majority should rule, and your committee presume that no man imbued with the genuine principles of free government in this enlightened age desires that comparatively a few men of wealth and capital should control the interests of the many. It also appears from the evidence of your committee, that the Honorable member from Marquette, has held many of the local offices in the township of Negaunee, for some years—that he has been elected supervisor, justice of the peace, president of said village, and a member of the school board thereof, previous to his election as a representative to this honorable body. That some

of those who are now pressing these charges against him formerly supported him for said positions, and some even used their influence to procure his nomination for representative from said county of Marquette, to this honorable body, though as they say not really desiring his election.

In regard to the charge made against the Honorable member, of being "an outspoken copperhead during the war," your committee have only to say that they failed to find any direct evidence of disloyalty on the part of the Honorable member, during the eventful period of the late rebellion. Not a single act of disloyalty was sustained by direct and legal proof, as charged against him. The charge that he aided and assisted one Freeman, who was supposed to be drafted, to leave the country, was entirely based upon hearsay evidence—nor did it appear even that said Freeman ever was drafted. The same is true of the charge that the Honorable member belonged to the order of "the Golden Circle."

An attempt was made to prove his disloyalty from voluntary statements made during the progress of the late war. In reference to these, your committee beg leave to say that such statements were entirely too vague and unsatisfactory to convince your committee of the fact sought to be established. No species of evidence is so unsatisfactory, as that, which depends for its truth upon the inferences drawn by parties while under the influence of their passions and prejudices. In times of great excitement, parties frequently use extravagant language that really does not convey their true sentiments, and is often qualified upon subsequent reflection. To condemn a party upon such statements, of so grave a charge as disloyalty, would seem repugnant to the first principles of justice.

The only other charge and the most serious of all is, "that the said Wm. P. Healy, sustained the strikes, riots and bloodshed among the inhabitants of this new county, and as a reward was elected by their votes as a member of this honorable body."

In reference to this charge, the evidence discloses not a single instance in which the Honorable member gave aid to or used his

influence in this direction. Nor has it been shown, even, that he approved of them by anything he said in relation to them. It is true that the Honorable member was a justice of the peace in Negaunee, and it is claimed by some of the witnesses that it was his duty to use his official station in aid of law and order; yet it does not appear that any party interested in putting down these strikes and riots ever applied to him for a criminal process against the strikers or rioters. Had such application been made and refused, there would have been some grounds for this accusation. The Honorable member was a judicial officer, and not ministerial, and could only act officially upon complaint duly made, on oath, before him. It is not, in the opinion of your committee, the duty of a judicial officer to take an active or officious part in any matter that might come before him for trial and adjudication; to do so, would be to degrade his judicial position as an impartial umpire between his fellow citizens. Your committee are of the opinion that the parties making this serious charge against one of their own citizens, entertained an erroneous opinion of the duties required of the Honorable member as a judicial officer in such emergencies, as gathered from the expression of one of the principal witnesses, when testifying that the acts of the Honorable member were acts of omission more than of commission.

The committee have the affidavits of quite a number of the citizens of Negaunee, stating that the Hon. Wm. P. Healy did not aid or assist the strikers or rioters, but expressed his disapproval of their course in every respect. It appears, further, that the Honorable member was nominated as a candidate for the office of Representative for the Marquette district, by a convention composed of respectable citizens of that district, who were opposed to these strikers and rioters. It would therefore seem a reasonable conclusion that if the Honorable member had been in sympathy with the strikers and rioters he would not have received such nomination at their hands.

Your committee are therefore unanimously of opinion that the said charges so made as aforesaid, against the Hon. Wm. P.

Healy, are not sustained by the evidence, and are, in the opinion of your committee, uncalled for and unjustifiable.

Your committee have therefore directed me to report back to the House the evidence taken before them, together with the accompanying documents, and ask to be discharged from the further consideration of the subject.

J. J. WOODMAN,

J. S. BARBER,

SETH K. SHETTERLY.

Report accepted and committee discharged.

On motion of Mr. McKernan,

The report was ordered printed.

I am constrained to return these bills, because I believe the legislation they propose is not only wrong in principle, but is unwarranted, at least, by the spirit and manifest intent of the Constitution, if not positively unconstitutional, because it is one of the most mischievous tendency, and is calculated, in its effect, to destroy the credit of the State—to inflict a severe injury upon all its industrial interests—to retard its growth and prosperity—to entail upon it the evils of repudiation—to prevent immigration, and, finally, to defeat the very ends which it seeks to secure; and, I may also add, because it opens the door whereby the right of the minority may be destroyed by an arbitrary majority,—to prevent the chances of which is not only the duty of the Executive, but of the Legislature.

These objections are more fully stated in my communications to the Senate, dated Feb. 5th and 25th, 1867, and to which I would most respectfully refer you. Although some of the specific provisions, in a portion of these bills, may vary in a few trifling particulars from those then returned, yet they are all of the same general character, and subject to similar objections.

In returning these bills for your re-consideration, permit me to say that this course is not prompted by any disposition to

annoy the Legislature with the repetition of my own views, nor to delay or embarrass the business of the session. But firmly convinced, as I am, of the evils which will result to our people from this legislation, I am not willing to appear to yield an assent to it, nor to leave my position in doubt, or open to misconstruction.

It is in no spirit of dictation or willful persistence, that I offer these objections, but regarding it as a matter of simple justice, I desire that the record shall state, without equivocation, the sentiments I entertain upon this most important subject.

MESSAGE FROM THE GOVERNOR.

The Speaker, by unanimous consent, announced the following:

EXECUTIVE OFFICE,
Lansing, March 28, 1867. }

To the Speaker of the House of Representatives:

I respectfully return to the House, without my signature, the following bills:

First. An act to authorize the several townships and cities of Monroe and Washtenaw counties, to pledge their credit in the construction of a railroad, from some point on the route of the Michigan Southern and Northern Indiana railroad, in the city of Monroe, or within 16 miles thereof, to the village of Saline, in the county of Washtenaw, by the way of Dundee;

Second. An act to authorize certain townships in the counties of Ionia and Montcalm, to vote a tax or pledge their credit to aid in the construction of a plank road from Ionia, in Ionia county, to Stanton, in Montcalm county.

My reasons for returning these bills without my approval, are, that they are of doubtful constitutionality; that if not unconstitutional they are inexpedient, and that the policy of such legislation will be, in my opinion, injurious to the best interests of the State. My objections are more fully set forth in my previous veto messages, made both to the House and the Senate,

on the subject of extending municipal aid for the construction of railroads, plank roads, &c., to which I would most respectfully refer you.

The second bill now returned, (House bill No. 253,) is objectionable on account of its ambiguity, and especially on account of the abuses which might grow up under it. Its language is susceptible of being so construed, as to authorize a municipality to raise money by taxation to construct, or aid in the construction, of a road outside of its territorial limits, and also to donate money to a private company or corporation for the construction of a road, which such corporation shall own, and for the use of which it may charge and exact tolls.

HENRY H. CRAPO.

On motion of Mr. L. Smith,

The House reconsidered the votes by which the bills were passed.

The question being upon the passage of House bill No. 378, entitled

A bill to authorize the several townships and cities of Monroe and Washtenaw counties, to pledge their credit in the construction of a railroad, from some point on the route of the Michigan Southern and Northern Indiana railroad, in the city of Monroe, or within sixteen miles thereof, to the village of Saline, in the county of Washtenaw, by the way of Dundee,

The objections of his Excellency, the Governor, to the contrary notwithstanding,

On motion of Mr. L. Smith,

The bill was laid on the table.

The question being upon the passage of House bill No. 253, entitled

A bill to authorize certain townships in the counties of Ionia and Montcalm, to vote a tax, or pledge their credit, to aid in the construction of a plank road from Ionia, in Ionia county, to Stanton, in Montcalm county,

The objections of his Excellency, the Governor, to the contrary notwithstanding,

On motion of Mr. L. Smith,
The bill was laid on the table.

On motion of Mr. Mead,

The rule requiring the second and third reading of bills to be on different days, was suspended for the remainder of the session.

On motion of Mr. Sweezey,

The question being upon agreeing to the title,

On motion of Mr. Van Vleet,

The title was amended so as to read as follows:

"An act supplementary to an act to provide for the incorporation of railroad companies, approved February 12, 1855."

The title, as amended, was then agreed to.

The committee on ways and means, by unanimous consent, submitted the following report:

The committee on ways and means, to whom was referred the following resolution:

Resolved, That the committee on ways and means be in-

structed to investigate by what authority the Secretary of State charges from twenty-five cents to as many dollars, for transcripts of records of his office; also, by what authority the Commissioner of the State Land Office charges from twenty-five cents to three or more dollars, for maps and plats prepared by clerks in his office, whose salaries are paid from the State treasury,

Have considered the same, and respectfully beg leave to report:

It seems to have been the practice in both these offices from the organization of the State Government to the present time, to charge certain fees. In the office of the Secretary of State, copies of any act or resolution of the Legislature, or of any record or paper, furnished to any private person, are charged for under the provisions of section 5655, of the compiled laws. In the office of the Commissioner of the Land Office, fees have been charged for maps, diagrams and copies of records, made at the request of the individuals making application therefor. There seems to be no law specially authorizing this officer to charge for such copies; but it seems but just and proper that parties applying for work of this kind should pay a just compensation therefor. We believe that no complaints are made that such charges have been unusual or disproportionate to the labor performed in either of the aforesaid offices. Under such circumstances, there seems to have been no injustice in these charges, and they may perhaps not have been improper although collected without authority of statute law of the State. The fees received from this source, in the office of the Secretary of State, amount, as near as the committee can estimate, to a sum from one to five hundred dollars a year. In the office of the Commissioner of the Land Office, these fees have been less, amounting, perhaps, to a sum from one to four hundred dollars per annum. No part of these sums have ever been paid into the State Treasury. It is but just to say that a portion of the fees thus received have been taken by deputies and clerks, who have performed the work outside of office hours, and with an

express understanding and agreement with the parties seeking information.

The practice has obtained in the offices, of making such charges. It is said that custom sometimes makes law, and in this case the usage seems to have grown up as incidental to the office. The committee would suggest, in this connection, that some law regulating these charges and providing for their payment into the State Treasury, seems both proper and necessary; and ask to be discharged from the further consideration of the subject.

WM. S. WILCOX, *Chairman.*

Report accepted and committee discharged.

Very respectfully,

THOS. H. GLENN,

Secretary of the Senate.

The following is the message:

EXECUTIVE OFFICE,
Lansing, March 28, 1867. }

To the President of the Senate:

I respectfully return to the Senate the following bills, without my approval:

First. An act to authorize townships and cities in the counties of Wayne, Washtenaw and Lenawee, to pledge their credit, to aid in the construction of a railroad from Detroit, by the way of Adrian and Morenci, to Fort Wayne;

Second. An act to authorize the cities, townships and incorporated villages of the State of Michigan, to aid in the construction and maintenance of wagon, gravel, cobble-stone, pounded stone and plank roads.

My objections to these bills are that they are of doubtful constitutionality, of bad policy, and inexpedient in practice, and which objections are more particularly set forth in my recent veto message made to your Honorable body, as well as to the House of Representatives, on the subject of extending municipal aid for the construction of railroads, plank roads, &c., to which I most respectfully refer you.

The second bill, (Senate bill, No. 58,) now returned, is also objectionable for its great ambiguity; but, to my mind, is nothing more nor less than an enabling act to aid private corporations. It is also still further objectionable, because it authorizes a majority to impose a tax to aid in the construction of a work beyond the limits of the municipality in which it is to be raised.

HENRY H. ORAPO,

On motion of Mr. L. Smith,

The House reconsidered the vote by which the bill was passed.

Mr. Newcombe moved that there be a call of the House;
Which motion prevailed.

The Sergeant-at-Arms announced Mr. Miles at the bar of the House.

On motion of Mr. L. Smith,

Mr. Miles was admitted within the bar of the House, rendered an excuse, and took his seat.

Mr. Mead moved that all further proceedings under the call be dispensed with;

Which motion did not prevail.

The Sergeant-at-Arms announced Mr. Huckins at the bar of the House.

On motion of Mr. Jewell,

Mr. Huckins was admitted within the bar of the House, rendered an excuse, and took his seat.

Mr. L. Smith moved that all further proceedings under the call be dispensed with;

Which motion did not prevail.

Mr. R. B. Smith moved to reconsider the vote;

Which motion prevailed.

The motion to dispense with all further proceedings under the call was then agreed to.

The question recurring upon the passage of Senate bill No. 58, entitled

A bill to authorize the counties, cities, townships and incorporated villages, of the State of Michigan, to aid in the con-

struction and maintenance of wagon, gravel, cobble-stone, pounded stone and plank roads,

The committee of conference on Senate bill No. 243, entitled

A bill making appropriations and provisions for the support of the Michigan Asylum for the Deaf and Dumb, and the Blind, at Flint, and for completing the west wing thereof, and erecting other buildings,

Respectfully report that they have conferred with a like committee on the part of the Senate, and are unable to make a unanimous report. That the Senate committee seem confident, that owing to the late period of the session, the bill as amended by the House cannot pass the Senate previous to the adjournment, but they prefer that the House recede from its amendments relative to the transfer of the swamp land interest fund, so as to apply on this appropriation, and that the appropriation be made out of any moneys not otherwise appropriated, without levying any special tax to meet the same. Your committee therefore make this statement of facts to the House, and ask for its instructions relative to the matter under consideration.

J. K. BOIES, *Chairman.*

Report accepted.

On motion of Mr. Walker,

The committee of conference were instructed to recede from the amendments made to the bill by the House.

On motion of Mr. Warner,

By a vote of two-thirds of all the members elect, the bill was ordered to take immediate effect.

Mr. Grier, by unanimous consent, offered the following:

Whereas, The committee on insurance have lately made a report "relative to the affairs of the late Climax Insurance Company;"

And whereas, Said report might be construed to reflect upon the honesty and integrity of the present officers of said company;

And whereas, Certain accounts and statistics of said company which might have materially modified the effect of said report, were not included in said report;

And whereas, Said report may, if unexplained, have the effect to prevent or retard the collection of the unpaid assessments now due said company, and thus prevent the company from paying the losses sustained by its members;

And whereas, The books of the said insurance company show that about \$35,602 58 of the June assessment is yet unpaid, which assessment was levied to pay losses occurring between February 1st, and June 1st, 1866; also a considerable amount of the February assessment of the same year is yet unpaid, which assessment was levied to pay losses occurring previous to February 1st; also, that another assessment was levied in January, 1867, of more than \$20,000, to pay losses occurring between June 1st, 1866, and January 15th 1867; and it appearing that if said assessments shall be promptly paid the company will be able to pay nearly all of its losses, and that some of the members of said company, who have suffered losses by fire, have little or no money to pay their debts, and support their families; therefore

Resolved, That it is the sense of this House that the members of said company are honorably and legally bound to pay their assessments, so that the just losses of the members of said company may be paid.

Resolved, That in the opinion of this House the want of success of the Climax Insurance Company results from the inherent evils of the system, as inaugurated by the laws of this State, under which said company was organized, and not from any dishonesty of the present officers of said company, and that there is no evidence that any of the funds of said company have been misappropriated by said officers, and that we have full faith in their honesty and integrity.

Whereas, The State of Michigan, by the terms of sale of the Michigan Central Railroad, in 1846, did reserve to the State the right to re-purchase said road at any time after the first day of January, A. D. 1867, upon certain conditions therein specified;

And whereas, Said road has earned a large sum for its stockholders, for several continuous years, over and above its operating expenses, which for the year ending May 31st, 1866, was \$1,949,250, and the net receipts for the same year, over and above improvements, losses, interest, exchange and Government tax, was \$830,072, which average profit hereafter would of itself pay for the re-purchase of the road, in accordance with the conditions of its sale, within ten years from this date, and leave said property free and unincumbered to the State at the end of ten years; therefore

Resolved, That the committee on internal improvements be and they are hereby instructed to examine into the expediency of the purchase by the State of Michigan, of the Michigan Central Railroad, as provided by sections 36 and 37, of an act of the session laws of 1846, entitled "an act to authorize the sale of the Central railroad, and to incorporate the Michigan Central Railroad Company," and to report thereon, in writing, to this House,

The Speaker appointed as such committee, Messrs. Boies and Grier.

The Speaker addressed the House as follows:

GENTLEMEN OF THE HOUSE:—You have, by patient and diligent application to business, and a sacrificing devotion to the faithful discharge of public duty, completed the responsible and important labors assigned you; and, the hour of final separation having come, it may not be inappropriate for me, at this time, and standing in this honored place, to express my sincere gratitude and heartfelt thanks for the uniform courtesy and kindness which have been manifested by each member and officer of the House, in their relations and intercourse with the chair, during the present protracted legislative session. If I have succeeded, during the excitement and asperity of debate, with your coöperation, to enforce the rules of the House and the demands of parliamentary law, with impartiality, and without offense, I have fulfilled a task as difficult in its execution as it is essential for the proper government and harmony of a deliberative body. When you assembled in this place, and took upon yourselves these responsibilities, you came together as strangers; but having been actuated by a common desire to promote the advantage and prosperity of the commonwealth, you have labored and coöperated to secure by legislation, that

which was believed to be for the best interests of the people, and the benefit and honor of the entire State. How far you may have succeeded in accomplishing these objects, the developments of the future alone will reveal; while, from the acquaintances here made, personal attachments have been formed, which have ripened into pure and lasting friendship, that will be remembered by you all, with feelings of satisfaction and great pleasure.

Gentlemen, although you met as strangers, I trust with confidence that you will part as friends, and that when separated from each other here, you may be returned in safety to your respective families and constituencies, to meet the warm embrace and affectionate welcome of the one, and receive the kind and generous approval of the other, while higher and more distinguished honors await you in the future; and if at this parting you are separated to meet no more below, then may the benignant smiles of Heaven rest with cheering rays upon your future pathway through life, the consolations of the gospel of peace be your support in the hour of death, the divine approval and the glorious and triumphant felicities of the life above be your eternal rewards in heaven.

Gentlemen, I bid you each and all a kind and affectionate adieu.

The committee appointed to wait upon the Senate and inform that body that the House has concluded its labors and is ready to adjourn, reported that they had performed the duty assigned them.

Report accepted and committee discharged.

On motion of Mr. Taylor,

The House adjourned until to-morrow morning, at eleven o'clock.

Lansing, Tuesday, March 26, 1867.

The House met, pursuant to adjournment, and was called to order by the Speaker.

Roll called: not a quorum present.
